Note: All rates of return are shown before investment management fees or taxes have been deducted.

The rate of return is used only to illustrate the effects of the compound growth rate and is not intended to reflect the future values or returns in the Fund.

Objective The Manulife Growth Asset Allocation Fund is managed to provide long-term growth of capital with some consideration given to current income. This fund is diversified by asset class and investment styles with the objective of achieving superior risk-adjusted returns over the long term. The Fund will generally maintain 80% of its investments in equity funds and 20% in fixed income funds though each segment may vary up to 10% from time to time.

Managed by Manulife Financial

Fund managers Various (please refer to Top Target Allocation of the Fund on this page)

Inception date February 1999 **Total assets** \$826.1 million

Historical gross returns

Gross rates of return are shown before investment management fees have been deducted. The solid area represents the gross returns of the Manulife Fund since its inception in February 1999.

* Only full calendar year returns are shown.

Overall past performance

This graph shows how a \$10,000 investment in this fund would have changed in value over time, based on gross returns.

* For illustration purposes only. Includes mutual/pooled fund performance as indicated. Actual fund performance could be expected to vary.
